Leather + Cork Rosebud Handbags? (Only in Hong Kong)

If you are always on the hunt for unusual bags, here is a fab news for you.

DNM (Delay No Mall) recently bring in the "Hoiming" S/S Bag Collection featuring the new "Pinocchio" Bag Series - with a fun mix of cork & leather. The line is 100% handmade ranging from HKD890 - over HKD7000.

I can't stand over-femme accessories but the rosebud collection by Hoiming hit the right balance using leather and cork in the rosebuds series, making it so wearable either with skirts, jeans, or even for cocktail parties.

Hoiming is one of the most talented local bag designers graduated from Hong Kong Polytechnic University. The brand had previously entered Harvey Nichols and is also developing a special line of bag series for the dept store.

My personal favorite is the Blossom Cork Handbag (HKD7,250) and here are more!

Tie Fiber Paper Necklace HKD890 (USD114)

Blossom Cork Handbag HKD7,250 (USD930)

Plunk Rosewood Clutch HKD2,650 (USD340)

The Hoiming S/S Bag Collection is now available at:
